Adaptability

Curiosity

EXTRACURRICULARS

GLOBAL PREP ACADEMY

2021-Present

Global Prep Academy challenges the traditional education experience and encourages student collaboration, innovation, and change-making. Created and ideated projects that I was passionate about.

KODE WITH KLOSSY

2021

Earned a scholarship with a competitive, online, inclusive, all-women's, summer coding camp. Collaborated with an international cohort of 35, and learned how to code Swift.

STUDENT TUTORING

2021-Present

Selected as a student tutor out of 92 other students, assisted during class periods, and tutored academic subjects in Math, English, and Computer Science.

DESIGN THINKING

2022

Learned various techniques of product design and architecture during a seven-week summer camp. Collaborated with other students and created mini-projects.

LANGUAGE LEARNING

2019-Present

Engaged with foreign language learning and cultural activities. Completed multiple free online Spanish-language courses. Maintained a consistent Duolingo streak of 200+ days.

GLOBAL ROUNDTABLE

2021-Present

Participated in critical race theory and critical thinking class offered at Global Prep Academy. Discussed and debated current events and topics. Analyzed papers, films, and music relating to the current status of the world.

PROJECTS

OOH LA LA PANINI- CO-FOUNDER

Designed and collaborated with peer to create official website for local restaurant for free, communicated with owners, created original designs. Utilized tools such as Figma, Photoshop, and Canva to present our designs. Implemented a direct ordering system, instead of relying on third-party order ahead services.

RISE- FOUNDER

Led and founded a project tackling the common misconceptions of sun protection. Created a school curriculum for elementary school students to learn about UV protection and managed a team to research and collaborate.

FOODY MOODY- CO-FOUNDER

Collaborated and coded a web-based application from scratch to help people learn more about small businesses/restaurants in Santa Clarita. Researched the best dietary habits and coded a web-based application from scratch using JavaScript, HTML and CSS.

DESIGN YOUR WORLD- WEB DEVELOPER

Ideated and designed the website for a student-led portfolio project. Coded and designed completely from scratch. Contributed to the project portfolio using Autodesk Maya to model, surface, and render a virtual 3D-modeled world.

GLOBAL CITIZEN- CO-FOUNDER

Collaborated in a team and created a module-like style of teaching to educate teenagers about international subcultures. Coded an interactive, educational, JavaScript-based website to educate individuals about the dangers of racial stereotypes, history behind holidays, and basic geographic education.

SKILLS FOR TOMORROW- RESEARCHER

Researched in a research team of 20. Curated specific skills, online courses, and university programs for pathways to prepare students for college by developing vital skills in order to be hired for a job.

THE 88- FOUNDER

Capstone project dedicated to bringing inclusivity to the Santa Clarita Valley through piano music. Communicated with art patrons and placed pianos around the town in public spaces.

DESIGN BY POLAND- FOUNDER

Coded and designed a business/interior design portfolio website from scratch using programming languages HTML and CSS and JavaScript. Maintained strong communication with the client.
